Repudiates Plan District Primary

Pledge to Support Nominees in Another Primary Revolution.

Nashville, Tenn., Feb. 13.—Declining to take part in what he considers a "loaded" primary, Congressman W C Houston of the Fifth district has issued a statement repudiating the primary set for April 27. Congressman Houston charges that favoritism has been shown in the naming of election officers in six out of the eight counties in the district.

Another vital objection to the primary proposed is that the plan provides that all who enter the primary must pledge to support the nominee of another and distinct primary. "Revolutionary changes of date and plan" is branded on the primary by Congressman Houston. All things considered, Congressman Houston advises his friends that his name be withdrawn from consideration in the primary referred to.

BILL AGAINST FORMER CAMPAIGN LEADERS

Knoxville, Tenn., Feb. 13.—Acting under orders of the Chancery Court, J Harry Price, receiver, filed a bill in the court to collect \$1,184 from Austin Pay, Nathan G Robertson and W T Kennerly as members of a former state democratic executive committee and as individuals. Mr. Price is receiver of the World Publishing Company, a defunct paper in Knoxville. The bill alleges that Mr. Kennerly, acting for the Democratic Executive Committee, subscribed for the Evening World, which was mailed to the parties where lists were furnished in East Tennessee; that the total amount of this subscription was \$2,184; that on this account \$1,000 was paid, leaving a balance of \$1,184 unpaid subscriptions; that the bill is filed against the above named parties as members of the committee and as individuals.

Good Roads Pay.

The following from the Darion (Ga.) Gazette is in line with the reports which come from the building of good roads. It reads:

"The question as to whether good roads pay or not, will be answered by the following: Jackson county, Alabama, built 125 miles of good roads in two years at a cost of \$250,000. In 1930 the average value of the land reached by these roads was \$4.80 per acre. Now ready purchasers would be glad to take them at from \$15 to \$25 the acre. And this one: In Hall County, Georgia, a farm containing 65 acres was sold for \$1,800. A macadam road was built through this farm and the owner was forthwith offered \$4500 for it. Good roads surely pay."

Governors Ask Col. Roosevelt

Want to Know if He Would Accept Presidential Nomination.

New York, Feb. 13.—"I have received a letter from the eight Governors, sent me from Chicago," said Theodore Roosevelt today, "and am giving it my careful consideration. I shall reply to it within a short time, probably within a week. Until that time, I can say nothing on the subject."

New York, Feb. 13.—Theodore Roosevelt has received a letter sent him from Chicago by eight Governors, asking him if he would accept the presidential nomination, but has not as yet framed an answer to it.

This statement was made today by Col. Roosevelt's secretary. The secretary declined to make public the contents of the letter, or the name of its bearer. It is reported however that the letter was brought to New York by former Federal Attorney Sims of Chicago.

Woodrow Wilson Men Overjoyed

New Jersey Governor May Yet Capture Oklahoma Delegates.

Washington, Feb. 13.—Woodrow Wilson men in Washington were much elated over the news from the Oklahoma primaries. The Wilson people had all along practically conceded the state to Champ Clark, realizing that Oklahoma is largely populated by an influx of people from Missouri. Incomplete returns, however, show that Wilson may capture the state and that even if he does not he has captured the First, Fourth and Fifth Congressional District delegations. These the Wilson people claim, together with delegates that will go to the convention unimpaired, render his chances of ultimately carrying the state almost rosete. The Clark people had unqualifiedly claimed Oklahoma as their own. They had claimed Missouri, Oklahoma and Kansas unreservedly and had ordered early conventions in them for political effect. The Oklahoma result is regarded as quite a setback to Clark's aspirations and as showing the great strength of Wilson with the masses of the people.

The Only Time When He Does.

A subscriber once wrote to an editor and asked:

"Please tell me, does a man in running around a tree go before or behind himself?"

The editor answered:

"That depends. If he is trying to catch himself, necessarily he follows himself, and consequently goes behind. If, on the contrary, he is running away from himself, the deduction leads to the very obvious conclusion that he precedes himself, and consequently goes before. If he succeeds in catching up with himself, and passes himself, at the moment of passing he neither precedes nor follows himself, but both he and himself are running even. This is the only case where he does not go before or behind himself."—Ex.

Corporations Must Report by March 1

Internal Revenue Collector W. A. Dunlap has given out a statement to the effect that every corporation in Tennessee whose annual report for 1911 is not on file in his office on or before March 1, 1912, will be compelled to pay a penalty of \$1,000 to \$10,000. Collector Dunlap says that under the law he will have no discretion, but will be compelled to proceed against all delinquents for the collection of the penalty.

Shocking Sounds

In the earth are sometimes heard before a terrible earthquake, that warn of the coming peril. Nature's warnings are kind. That dull pain or ache in the back warns you the kidneys need attention if you would escape these dangerous maladies, Dropsy, Diabetes or Bright's disease. Take Electric Bitters at once and see backache fly and all your best feelings return. "My son received great benefit from their use for kidney and bladder trouble," writes Peter Bondy, South Rockwood, Mich. "It is certainly a great kidney medicine." Try it. 50 cents at Crowder Bros. & Beckham.

Senator Turner Here Thursday

Making an Active Canvass for Congress.—Padgett's Course Uncertain.

Senator Clarence W. Turner, candidate for Congress from the Seventh Congressional District, was here Thursday, renewing old acquaintances and making new ones. He is prosecuting his canvass with great activity, although neither of his opponents, Hous. L P Padgett and L B White are in the field, and there is some doubt expressed as to whether they will enter the fight in the April primary, as both of them were strenuously opposed to that date and the rules adopted.

Senator Turner is a man of classic features, dignified manner, and has wide legislative experience. He has been quite prominent as a leader of the Regular faction of the Democracy in this state.

Power From Caney Fork to Columbia

Lincoln Nisley of Nashville, Engineer of Great Falls Co., Surveying Route.

Columbia, Tenn., Feb. 13.—Lincoln Nisley of Nashville, one of the engineers of the Great Falls Power Company, of Warren and White counties, was in Columbia yesterday and today surveying a route over which to bring the power to this city and Mt. Pleasant when the power plant now being constructed at Great Falls is completed. The main lines of the current will run to Murfreesboro and from there will branch to Nashville, Columbia and Lebanon. The line to Columbia will pass through Marshall county by way of Caney Springs and from here will go to Mt Pleasant and Pulaski. He stated that the wiring would have to run close to the pikes over which the route would come, as the company would do all of its repair work with auto trucks.

How Cold Affects The Kidneys

Avoid taking cold if your kidneys are sensitive. Cold congests the kidneys, throws too much work upon them, and weakens their action. Serious kidney trouble and even Bright's disease may result. Strengthen your kidneys, get rid of the pain and soreness, build them up by the timely use of Foley Kidney Pills. Tonic in action, quick in results. Crowder Bros. & Beckham.
